

GABRIELLE MCGARRY

PRODUCTION SPECIALIST

about me

My name is Gabrielle McGarry and I am a video production specialist at the Integer Group in Dallas, Texas. My passion is in video editing and directing. I began working through a lens when I was 13 - I started my own photography business and slowly grew from there. Now, I create video and animated content for some of the world's largest corporations while simultaneously producing viral social content for myself. My dream is to work with like minded-individuals who want to create impactful work through video. I hope to pursue a career in the film industry and lend my skill set to those who will bring joy to the world.
